

3.6 ATTRACT Initiative - detector R&D and imaging program funded by EC (CERN)

Tuesday 20 May 2014 10:15 (15 minutes)

The presentation will summarize an initiative proposed to the European Commission for establishing a dedicated program for ionizing radiation and imaging R&D, cutting across all fields developing such sensors and related technologies. ATTRACT is science driven but integrates European Small and Medium Enterprises as co-developers, aiming at shortening the innovation cycle from research to societal use.

Presenter: NORDBERG, Markus (CERN)

Session Classification: Session 3
