

BL4S Proposed Sketch for the Parasite Experiment

First Scintillator to trigger system

Its dimensions of the scintillator are ~24x30x2 cm³ but here it is taken bigger as it will have holder or table.

DWC with its own holder

We need to find out where its holder is!

Halo Counter in adjustable frame

We need a block to put it on

An adjustable table (if available)

On the table there will be:

- 2nd DWC
- 16 Lead Glass Calorimeters
- 1 Scintillator

The dimensions of the table is taken instinctively

Crate in the T9 zone
