The meeting took place on July 10, 2014, at CERN. It was held during the annual ENLIGHT meeting, jointly with the final ULICE meeting and the ENTERVISION annual meeting. More than 140 people attended the meeting, including major experts in hadron therapy from Europe, the US and Japan.

The final results of the project were thus presented to a wide audience. A brainstorming on future directions for medical imaging in hadron therapy was organised during the afternoon.
