ALICE

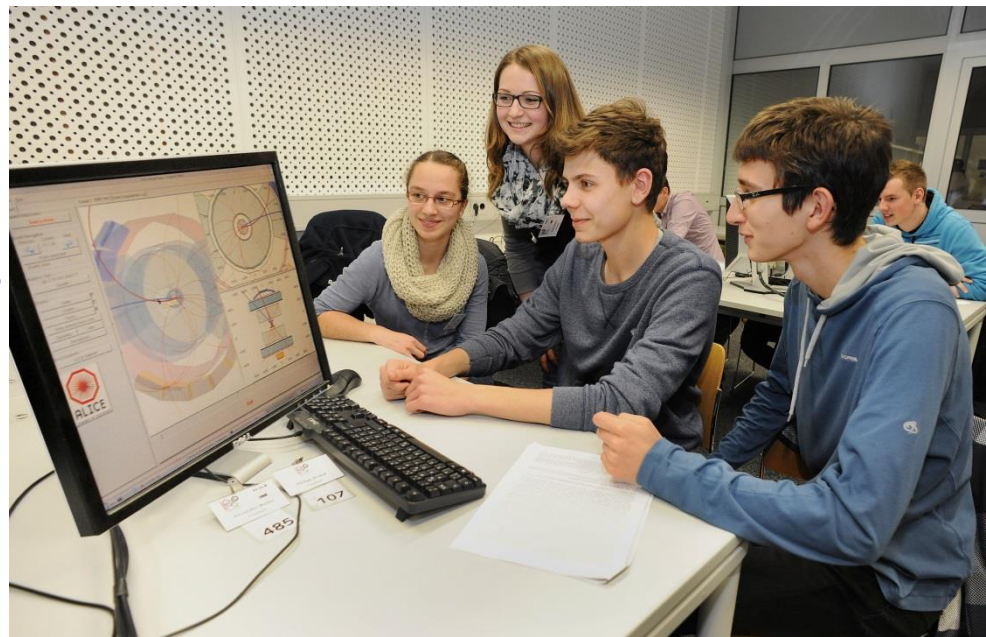

- heavy-ion experiment at the LHC
 - investigation of quark-gluon plasma properties

Masterclass 2014

- one event in this year's masterclass season (April 1st 2014)
 - ~60 participants at 4 institutes
 - Cairo, Egypt
 - Darmstadt, Germany
 - Frankfurt, Germany
 - Prague, Czech Republic
- same measurement as previously
- no technical problems
- all student groups 'discovered' the quark-gluon plasma
