

How to Contribute to the New Web Page

Geant4 Collaboration Meeting
Lisbon, Portugal
13 October 2006
Dennis Wright

Outline

- New guidelines for web page contributors
- List of pages that need to be converted to new format
- Some suggested contributions

Web Page Contributors Guidelines (1)

- Check out a copy of the web pages to your directory
 - `cvs -d /afs/cern.ch/sw/geant4/cvs co www`
 - then edit and commit
 - live web site will be updated automatically upon commit
- Do not modify the following pages (they are auto-generated):
 - `Steering_board.shtml`
 - `working_groups.shtml`
 - `members.shtml`

Web Page Contributors Guidelines (2)

- Follow good html practice
 - always use lower case in tags, eg. `<h2>`, `<a href ...`
 - close all tags, eg. each `` should have a ``
 - whenever you edit a page, click on the "XHTML 1.0" link at the bottom of the page. All html errors will then be listed.
- When adding new pages, use the new format
 - use existing pages as templates
 - use `.shtml` file name extension
- Check all your links

Web Page Contributors Guidelines (3)

- Suggested policy:
 - always notify webmaster (Gunter) when you add or modify web pages
 - before changing structure or organization of existing page, consult webmaster
 - the higher level the page, the less it should be modified
 - top page: almost never
 - next level down: rarely
 - second level down: more likely, especially for the results/ and support/ subdirectories
 - third level down: frequently

List of Pages Yet to be Converted to New Format

- Internal part of steering board page
- Internal part of oversight board page
- Working group pages
 - standard EM
 - low energy EM
 - system testing
 - existing working group pages also in need of update

Suggested Contributions (1)

- Several working groups have no web pages
 - Run, event, detector response
 - Tracking
 - Particle and Track
 - Processes and Materials
 - Persistency
 - User and Category Interfaces
 - Visualization

Suggested Contributions (2)

- Publications page
 - Everyone can help on this one
 - Out-of-date and incomplete
- Develop a new Site Index

Suggested Contributions (3)

- **Develop physics list documentation pages**
 - good task for student or Geant4 newcomer
 - some work already done – can be used as template
- **Help develop validation web pages**
 - can use lots of help here
- **Unify and update FAQ**
 - remove from documentation manuals
 - put in user support web pages
