

The 2014 Kyoto Workshop on HTS Magnet Technology for High Energy Physics

– The 2nd Workshop on Accelerator Magnet in HTS –
November 13 – 14, 2014, Kyoto, Japan

Welcome to the Workshop

Naoyuki Amemiya
Workshop Chair
Kyoto University

Scope of the Workshop

- The second of a series of the workshops dedicated to HTS technology R&D for accelerator magnets
- Focusing on HTS *magnet* technology, whereas the first one, WAMHTS-1 in Hamburg focusing on HTS *conductors*
- Expecting interaction between researchers working on conductors and researchers working coils/magnets

One request and one proposal by organizers

- All speakers are requested to leave substantial time for discussion:
 - 7 – 10 min. in each 30 min. talk
 - at least 5 min. in each 20 min. talk
- We reserved 20 min. for “Latest developments, comments, suggestions” in the last session on Friday, just before the general discussion.
 - If you want to talk, please contact Toru Ogitsu.
 - Up to 3 slides and 5 min. w/o discussion

Logistic Information

- Group photo will be taken before lunch today.
 - Please stay in the Hall and follow the instruction.
 - If cloudy, it might be moved to tomorrow.
- Lunch will be provided today
- After the first session in this afternoon, we will move to Arashiyama, where the second session and the dinner will take place. Don't miss the buses.
- We are thinking to organize informal dinner tomorrow.
 - We need to book tables, because restaurants are busy on Friday evening.
 - Please sign up on the sheet by 2 o'clock today.
