

Session Program

12-14 Nov 2014

**The 2014 Kyoto Workshop on HTS Magnet
Technology for High Energy Physics - The 2nd
Workshop on Accelerator Magnet in HTS
(WAMHTS-2) -**

R&D for HTS Accelerator Magnets (3)

Friday 14 November

08:30

R&D for HTS Accelerator Magnets (3)

Session | **Location:** Katsura Campus of Kyoto University, Katsura Hall | **Convener:** David Larbalestier

08:30–09:00

R&D of fundamental technologies of accelerator magnets using coated conductors

Speaker

Naoyuki Amemiya

09:00–09:30

HTS magnets in high radiation areas

Speaker

Al Zeller

09:30–10:00

Canted cos-theta magnets

Speaker

Shlomo Caspi

10:00–10:30

Bi-2212 high-field magnet technology at Fermilab: Prototype overpressure processing coil fabrication and quench protection studies

Speaker

Tengming Shen

10:30
