

Session Program

28-30 Jul 2015

Reflections on the atomic nucleus

New experimental probes II

Thursday 30 July

11:00

New experimental probes II

Session | **Location:** Chadwick Lecture Theatre | **Convener:** Angela Bracco

11:00–11:25

Producing radioactive ion beams through the ISOL method: advances, challenges and opportunities

Speaker

Mark Huyse

11:25–11:50

TSR project at ISOLDE

Speaker

Fredrik Wenander

11:50–12:15

Radioactive Beam Facilities for Tomorrow

Speaker

Yorick Blumenfeld

12:15
