

Session Program

28-30 Jul 2015

Reflections on the atomic nucleus

New experimental probes I

Tuesday 28 July

14:00

New experimental probes I

Session | **Location:** Chadwick Lecture Theatre | **Convener:** Robert Page

14:00–14:25

Developments in in-beam conversion electron spectroscopy

Speaker

Janne Pakarinen

14:25–14:50

Recent developments in detection technology for scientific research applications

Speaker

James Cocks

14:50–15:15

Nuclear Physics Experiments with High-Power Lasers and Brilliant Gamma Beams at the ELI-NP Facility

Speaker

Dimiter Balabanski

15:15
