

Session Program

26-28 Nov 2014

Workshop on Special Compact and Low Consumption Magnet Design

3rd Session: The saving prospects in European Labs, projects and machine upgrades - Part 1

CERN, 30/7-018 - Kjell Johnsen Auditorium

Wednesday 26 November

16:00

3rd Session: The saving prospects in European Labs, projects and machine upgrades - Part 1

Session | **Location:** CERN, 30/7-018 - Kjell Johnsen Auditorium | **Convener:** Jim Clarke

16:00-16:30 **The CEA-Saclay experience**

Speaker

Pierre Vedrine

16:30-17:00 **Compact and low consumption magnet design - The DESY experience**

Speaker

Bernward Krause

17:00-17:30 **Magnet designs for the ESRF-SR2**

Speaker

Gael Le Bec

17:30-18:00

Energy management at GSI and FAIR strategy on energy management

Speaker

Philipp Gardlowski

18:00-18:30

Energy efficient beam transport by means of high current pulsed magnets

Speaker

Carmen Tenholt

18:40
