

Session Program

26-28 Nov 2014

Workshop on Special Compact and Low Consumption Magnet Design

4th Session: Efficient and compact magnet design examples - Part 1

CERN, 30/7-018 - Kjell Johnsen Auditorium

Thursday 27 November

10:30

4th Session: Efficient and compact magnet design examples - Part 1

Session | **Location:** CERN, 30/7-018 - Kjell Johnsen Auditorium | **Convener:** Daniel Schoerling

10:30-11:00 **Compact superconducting magnets for linear accelerators**

Speaker

Vladimir KASHIKHIN

11:00-11:30 **Electromagnetic and hybrid design experience for CLIC magnet R&D**

Speaker

Michele Modena

11:30-12:00 **ZEPTO: Tunable permanent magnet dipoles and quadrupoles**

Speaker

Ben Shepherd

12:00-12:30

The experience at FERMILAB: recycler ring and beam lines based on PM technology

Speaker

Vladimir KASHIKHIN

12:30
