# Section Structure

- Motivation

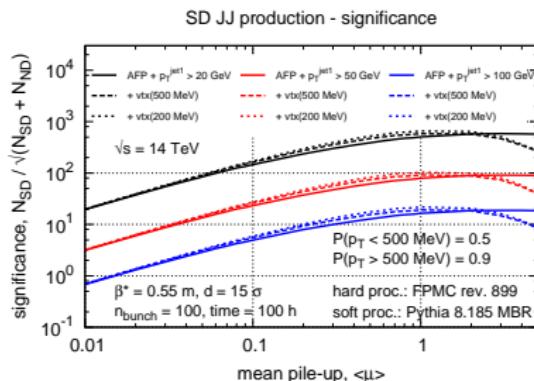

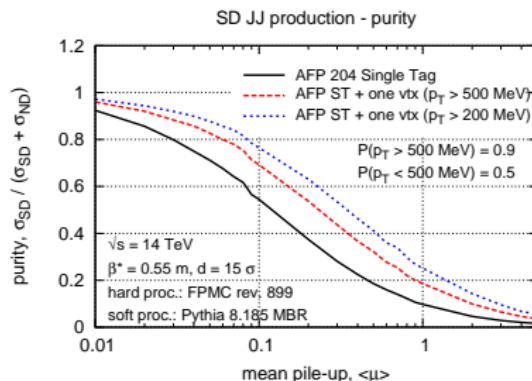

news / interesting aspects from theory point of view are welcome!  
e.g.  $c\bar{c}$  production

- Results from LHC experiments (if public).

e.g. ATLAS and CMS results on SD JJ production

- Predictions for the future LHC runs.

ATLAS(ALFA/AFP) – CMS-TOTEM agreement on common plots?  
( $\sim$  same proton acceptance), e.g.:

Above plots are very preliminary!
