

Enabling Grids for E-scienceE

VO Management

EGEE08 Conference

www.eu-egee.org

- **Briefly present the EGEE3 VO (management) Support Group**
- **Remind VO Managers of security procedures (Daniel Kouril, David Kelsey)**
- **Present results from recent VO surveys**
- **Discussions**

- **Creation in EGEE3, continuation of VO Management Group**
- **Main goal : simplify VO management**
 - Interact with other EGEE bodies in that sense
 - Gather VO needs from VO Managers
 - Provide VO Managers with
 - Support
 - Documentation
 - Management tools
 - Make sure VO Managers get the information
 - Ease communication between VOs and the project
- **Side goal : simplification may ease EGI transition...**

- 1st and most important : VO documentation repository
- FAQ concerning VO Management
- Procedures and policies VO managers must be aware of
- Procedures and policies users must be aware of (and that manager must then enforce)
- Summary of procedures (documents usually point to other docs in EDMS)
- How to setup a VO
- How to dismantle a VO
- ...

- **CIC portal key and missing features**
 - VO Software area size
 - core services selection
 - VOMS groups and role ordered and restricted definition
- **Generic SAM/Nagios tests for VOs**
- **Enabling VOs to use VOMS enabled collaborative tools (VO mailing lists, VO wikis, chat rooms...)**
