## IPv6 deployment and gLite IPv6 compliance

*Tuesday, 23 September 2008 14:00 (45 minutes)*

In this presentation we will report on the current stand of the SA2 activities related to the IPv6 compliance of gLite.

Results on the studies of IPv6 compliance of specific packages and libraries will be reported. An overview of the global stand of gLite with respect to IPv6 will be given.

Activities carried out in collaboration with JRA1, SA3 and ETICS will be described, aimed at addressing the issue of getting an IPv6 compliant version of gLite.

Status of the testing infrastructure and currently on going work will be summarized.

**Primary authors:** Mr DUBLE, Etienne; Dr REALE, Mario (GARR); Mr ZUREK, marian (CERN, IFJ KRAKOW)

**Session Classification:** IPV6 and Network Activity
