

Enabling Grids for E-science

PPS All-sites meeting

*Antonio Retico (SA1, CERN)
EGEE 08 - Istanbul - 24 Sep 2008*

www.eu-egee.org

- **Welcome**
- **Objectives of the meeting**
- **Agenda**

- **Meet with colleagues you know only by e-mail address**
- **Sum-up the changes happened in PPS during the last year and understand how our day-to-day work may be affected by these changes**
- **Make progress on the re-distribution of tasks between the pre-production partners, with a special regard to deployment testing**
- **If needed, draft a wish list of additional resources to be requested to the ROCs**

- **Recent developments: is PPS now used?**
 - Angela POSCHLAD; Antonio RETICO [16:15 - 16:35]
- **Activity Management: What for?**
 - Antonio RETICO (CERN) [16:35 - 16:50]
- **Questions, Clarifications, Discussion**
 - [16:50 - 17:00]
- **The deployment test: How it is and how it should be**
 - Javier LOPEZ CACHEIRO [17:00 - 17:20]
- **Questions, Clarification, Summary**
 - [17:20 - 17:30]

Before moving to the talks...

- **Someone may say: The Pre-Production is a Service ...**
- **Someone may say: The Pre-Production is an Activity ...**
- **Someone may say: The Pre-Production is a Pain ...**
- **But first of all the PPS is Made of People**
 - Working
 - Learning
 - ... and Being There
- **So, thank you again for your work and for joining this meeting, today**
