

# XIII International Workshop on Hadron Physics - XIII Hadron Physics

**Sunday 22 March 2015 - Friday 27 March 2015**

**Hotel do Bosque**

## **Themes**

Contributions to the program will be organized within the following themes:

## **Field theoretical approaches to QCD**

## **Hadronic and quark matter - applications in astrophysics**

## **Hadronic structure - reactions, production and decays**

## **Lattice QCD - methods and results**

## **Relativistic heavy-ion reactions - new data, analyses and models**

## **Strong and electroweak interactions in the standard model**
