PRODUCTION Normalised CPU time by REGION and VO.
EGEE VOs. June 2007 - May 2008.

The following table lists the certified sites that have not published accounting data to GOC during the last 3 months. This probably indicates a major problem in the accounting system of the site so **listed sites are encouraged to take the appropriate measures to correct it.**
If your site is in this list, you should check the next table because you can have a problem with your published sitename.

Enabling Grids for E-science
 (C) CESGA. 2006

Done 89

- **Active VO**
- **Integrated NJobs**
- **Integrated Norm. CPU**
- **Integrated CPU**
- **Integrated Norm. Elapsed**
- **Integrated Elapsed**

- **UserDN captured from CE log files (grid-jobmap logs)**
- **APEL uses the data to build accounting records**
- **Data published to GOC with on-the-fly encryption using APEL public key (1024 bit RSA)**
- **At the GOC data are extracted from RGMA and stored in a Central Accounting Repository.**
- **Data decrypted using APEL private key**
 - User Level summary table created
 - On-the-fly encryption using EGEE Portal certificate
- **Encrypted table pushed to CESGA portal**
- **Portal decrypts data and provides SSL based access to the summaries.**

- **UserFQAN**

- Capture UserFQAN from grid-jobmap log on CE
- FQAN chain processed at the GOC to derive Group and Role from the primary part of the chain.
- If UserFQAN present, we can use the Group to derive the VO of the user submitted job (otherwise the local unix group is used).

- Includes a tool to collect accounting data directly (R-GMA)
- Accounting data stored in a local database in the ROC
- First to include user level information
- Development during last year focused on the Global Portal

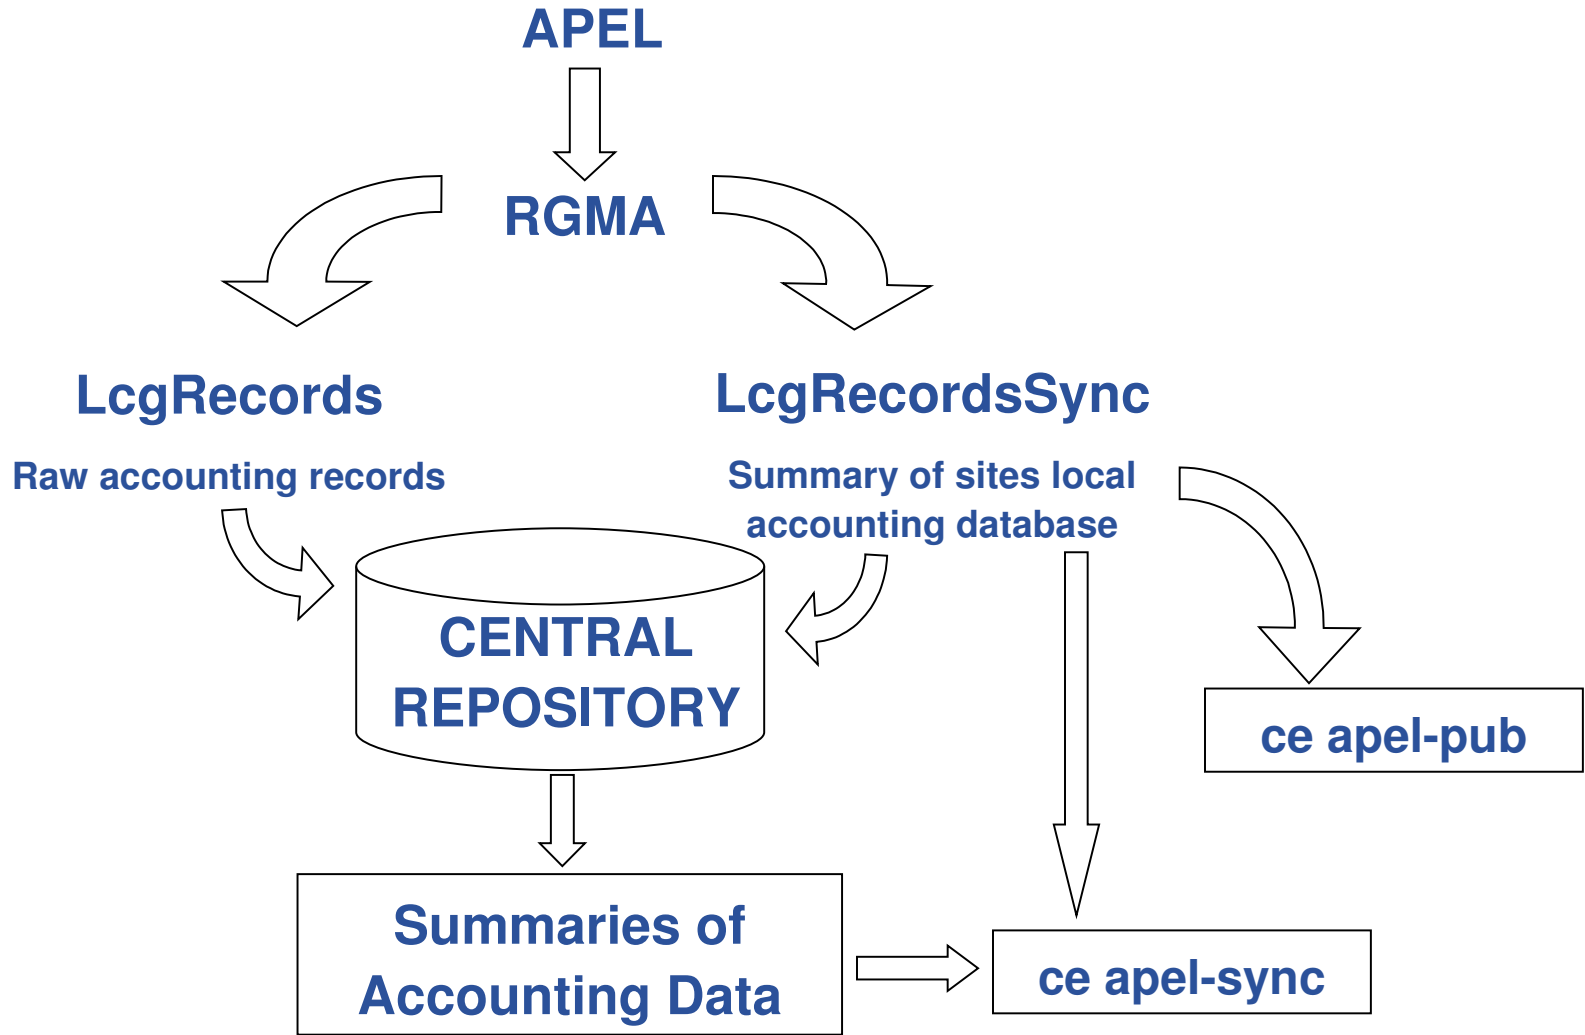

ROC Accounting Data

Instructions

JOBS	
Number of jobs Total number of jobs run
CPU TIME	
Norm. Sum CPU Normalised CPU time to a reference value of 1000 <i>SpectInt2000</i>
Sum CPU time Total CPU time used
Avg CPU time Average CPU time
ELAPSED TIME	
Norm. Elapsed time Normalised elapsed time to a reference value of 1000 <i>SpectInt2000</i>
Sum Elapsed time Total elapsed time
Avg Elapsed time Average elapsed time
Ratio Elapsed/CPU Ratio elapsed time / CPU time
Sum Elapsed - CPU Total Elapsed time minus CPU time
Avg Elapsed - CPU Average Elapsed time minus CPU time
MEMORY	
Avg Memory Average physical memory

- **Provide an interface in the portal to compare accounting data with SLD/MoU/TA**
- **Do we go regional?**
 - Regional accounting portal: RAP
 - Already available but we focus our work in the Global Portal
 - It allows each ROC to collect, store and display the accounting of their sites
 - Some Federations already use it
 - Regional Accounting Enforcement Web?
- **Additional Views: Clouds of Atlas**
- **WLCG annual reports**

Thank you!
