

Discussion of the Biomed cluster work plan

Monday, 9 June 2008 16:00 (1h 30m)

The goals of the meeting is to go through the workplan and discuss the programme of work during EGEE-III.

The main issues are the following:

- to further refine the workplan
- to define a Modus operandi for the organization of the biomed cluster
- discuss the transition to EGI
- produce a list of applications supported by the cluster
