

Session Program

17-21 Jun 2014

Low x 2014

Saturation

Other Institutes, Yukawa Institute
Yukawa Institute, Kyoto

Tuesday 17 June

14:30

Saturation

Session | **Location:** Other Institutes, Yukawa Institute, Yukawa Institute, Kyoto

14:30–14:50

Heavy quark pair production and parton saturation in pA collisions at the LHC

Speaker

Kazuhiro Watanabe

14:50–15:10

Saturation and low x in EPOS

Speaker

Dr Tanguy Pierog

15:10–15:30

Interplay of coherence and saturation

Speaker

Krzysztof Kutak

15:30–15:50

A generalized Glauber-Velasco model for LHC energies, focussing on the low- $|t|$ region

Speaker

Tamas Csorgo

15:50–16:20

Coffee break

16:20–16:40

Forward di-jet production in p+Pb collisions

Speaker

Cyrille Marquet

16:40–17:00

Conformal Regge Theory, confinement and low-x physics

Speaker

Chung-I Tan

17:00–17:20

Dipole model analysis of high precision HERA data

Speaker

Agnieszka Luszczak

17:20–17:40

Saturation at strong coupling

Speaker

Piotr Surowka

17:40–18:30

Discussion session: Saturation

Speakers

Cyrille Marquet, Jochen Bartels

18:30
