

# BIQ Workshop 2014

- On September 15-16, 2014, at CERN (30-7-018).
- Topics:
  - Experience with beam-induced quenches at LHC and other machines (KEK, BNL, DESY, GSI, tbc).
  - Analysis of quench tests.
  - Experimental and modeling R&D on cable stability.
  - Review of BLM thresholds on cold magnets for LHC Run 2.
