

# 4th Joint HiLumi LHC-LARP Annual Meeting

## Wednesday 19 November 2014

### WP2/4/5 Session Wednesday AM - Kobayashi Hall, 1F, Kenkyu-Honkan Bldg. (11:00 - 12:30)

-Conveners: Stefano Redaelli

time	[id] title	presenter
11:00	[107] Wake fields and impedances of LHC collimators - 15' + 5'	Dr FRASCIELLO, Oscar
11:20	[61] Updated impedance model - 20' + 5'	Dr BIANCACCI, Nicolo
11:45	[62] Machine settings and operational scenario from stability considerations for HL-LHC with and without harmonic system, expected intensity and stability limitations. Countermeasures (Mo-Graphite collimators, damper, octupoles) - 20' + 5'	Dr METRAL, Elias
12:10	[63] Status of R&D and beam plans for low impedance collimators - 15' + 5'	CARRA, Federico
