Enabling Grids for E-sciencE

Meeting Summary

Tomasz Szepieniec, Marcin Radecki

Bratislava, 28-29 April, 2008

- **SLD related:**
  - Action: ROC will summarize the view of sites to SA1 Managment and check what is acceptable at project level
    - Declaration at technical level possible, signing is complicated
    - Need for 'testing period' while the reliability of metric monitoring is not clear before going to more legal aggrements
  - Check if GridView can be customized with value for every site
  - **Any changes to SLD template? – please read carefully and let me know**
  - What to do with sites which are no EGEE3 members?
    - we prefer all sites in production follow the same way
- **Resource allocation related:**
  - How we introduce sites resources policy into Bazaar?

Enabling Grids for E-sciencE

- **Time slot for regional Operations Meeting**
  - Monday morning 11-12 AM
  - First meeting: second half of May
  - Evo videoconference tool

- **Use jabber for prompt contact with operations people**
  - For simple, quickly solvable tasks

- **Representation in SA1 bodies**
  - SA1 Technical Team – CE site rep. - Jan Astalos

- **Subtask responsibles at institutes**
  - to be collected via e-mail after the meeting

eGee

Enabling Grids for E-sciencE

- **How to RUN production and pre-production services**
  - Required regional service: **top level BDII**
    - **Testing, upgrades, info pages, usage statistics lead by CYFRONET**
    - **CESNET and SRCE agree on running the service instance?**
  - CESNET to provide *VO-suite* set of services for incoming VOs
  - Ask partners for their preferences
    - Anybody interested in running & coordinating PPS in CE?
      - *Run pre-deployment test for site services*
      - *How other activities could benefit/contribute to PPS*
    - Anybody else interested in running VO-suite services?
      - *If so, do we need to coordinate/collaborate on this or let it on sites?*

Enabling Grids for E-sciencE

- **Monitoring tools**
  - PSNC to replan their monitoring tools activity

eGee

Enabling Grids for E-sciencE

Central European ROC
(April 2008)

Enabling Grids for E-sciencE

eGee

Enabling Grids for E-sciencE

- **It seems that ROC will be closed at the end of EGEE3**

- **Formula for futher collaboration needs to be developed**

- **Message for EGEE3 and EGI -> CE ROC will transform in 6 NGIs**

- **Transission will be planned in a group of ROC and NGI operational representative**

Enabling Grids for E-sciencE

- **TPM and detailed allocation in 1.3.2**
  - CESNET will coordinate this in 2 months
  - It is possible to allocate more than 3PMs per team basing on resonable calculation of real effort
- **Clarify procedure of user support in ROC page**
  - CESNET to provide materials
- **Prepare method of periodic reporting of user support activities**
- **Create a CE User Support Team with mandate to:**
  - Describe architecture of user support in CE
  - Prepare a list of requirement for help desk
  - **Miroslav Ruda (chair,CESNET)** + SRCE rep.+ ICM rep. + PSNC rep. + ?
  - Provisional deadline for reporting: end of July 2008

- **Please submit your slides to:**
  - http://indico.cern.ch/conferenceDisplay.py?confId=32686
  - or indico.cern.ch -> Project -> EGEE -> SA1 -> CE

  - Passwd for modification: bratislava
