

Probing hot QCD matter and the fireball evolution with light-flavour hadrons in ALICE

Tuesday, 28 July 2015 11:00 (30 minutes)

Probing hot QCD matter and the fireball evolution with light-flavour hadrons in ALICE

Primary author: BELLINI, Francesca (Universita e INFN, Bologna (IT))

Presenter: BELLINI, Francesca (Universita e INFN, Bologna (IT))

Session Classification: QCD at High Temperature and Density & Phase Diagram
