

Session Program

Jul 26 - 31, 2015

**Second conference on heavy ion collisions in
the LHC era and beyond**

Pre-equilibrium and Initial State Physics

Quy Nhon, Vietnam
International Center of Interdisciplinary Science Education (ICISE)

Thu, July 30

3:30 PM

Pre-equilibrium and Initial State Physics: The LHC data at p-Pb collisions (& nPDFs)

Session | **Location:** Quy Nhon, Vietnam, International Center of Interdisciplinary Science Education (ICISE) | **Convener:** Manoel R. Moldes

4:15 PM

3:30 - 4:15 PM **The LHC data at p-Pb collisions (& nPDFs)**

Speaker

Manoel R. Moldes

Fri, July 31

2:45 PM

Pre-equilibrium and Initial State Physics

Session | **Location:** Quy Nhon, Vietnam, International Center of Interdisciplinary Science Education (ICISE)

2:45 - 3:15 PM **Forward di-jets at the LHC**

Speaker

Dr Krzysztof Kutak

3:15 - 3:45 PM **Coffee break**

3:45 - 4:15 PM **Has the saturation model found its smoking gun?**

Speaker

David Zaslavsky

4:15 - 4:45 PM

Heavy quark pair production in pA collisions at the LHC within the CGC framework

Speaker

Kazuhiro Watanabe

5:35 PM
