

# Second conference on heavy ion collisions in the LHC era and beyond

## Wednesday 29 July 2015

### Heavy Flavor and Quarkonia Production (09:15-12:30)

time	[id] title	presenter
09:15	[11] Review of quarkonium production mechanism in pp collisions from low to high $p_t$	ZHANG, Hong-Fei
10:00	[14] Open heavy flavor results from RHIC and the LHC	APADULA, Nicole
10:30	Coffee break	
11:00	[9] Quarkonium production in heavy-ion collisions at RHIC and LHC	HONG, Byungsik
11:30	[27] Prospects on heavy-flavour measurements from Run 2 and the detector upgrades at the LHC and RHIC	KWEON, Min Jung

# Thursday 30 July 2015

## Heavy Flavor and Quarkonia Production: Heavy Flavor and Quarkonia Production (14:30-15:00)

time	[id]	title	presenter
14:30	[6]	D-meson observables in p-Pb collisions at LHC with MC@shQ+EPOS3 model	OZVENCHUK, Vitalii
