

Session Program

2-6 Dec 2014

DISCRETE 2014: Fourth Symposium on Prospects in the Physics of Discrete Symmetries

Parallel 7: Supersymmetry, Supergravity, Strings, Branes

King's College London, Strand Campus, Great Hall and several lecture theatres
Strand London WC2R 2LS UK

Friday 5 December

14:30

Parallel 7: Supersymmetry, Supergravity, Strings, Branes

Session | **Location:** S7.06 7th floor Strand Bldg.

14:30–15:00 **SUSY Searches: Recent Results from ATLAS & CMS**

Speaker

Michael Christian Rammensee

15:00–15:30 **Neutrino masses from SUSY breaking in radiative seesaw models**

Speaker

Antonio Figueiredo

15:30–16:00 **Exploring neutrino physics at LHC via R-parity violating SUSY**

Speaker

Dr Vasiliki Mitsou

16:00
