

Session Program

2-6 Dec 2014

DISCRETE 2014: Fourth Symposium on Prospects in the Physics of Discrete Symmetries

PLENARY 4

King's College London, Strand Campus, Great Hall and several lecture theatres
Strand London WC2R 2LS UK

Friday 5 December

09:00

PLENARY 4

Session | **Location:** Great Hall

09:00–09:45

Supergravity: status and prospects

Speaker

Jean-Pierre Derendinger

Location

Great Hall

09:45–10:30

The Moebius symmetry of quantum mechanics

Speaker

Alon Faraggi

Location

Great Hall

10:30–11:00

Coffee Break

11:00–11:45

Discrete Symmetries in String/M theory and Grand Unification

Speaker

Bobby Samir Acharya

Location

Great Hall

11:45–12:30

Lorentz symmetry breaking: phenomenology and constraints

Speaker

Stefano Liberati

Location

Great Hall

12:30–13:15

Summary and prospects of the LHCb Experiment

Speaker

Prof. Neville Harnew

Location

Great Hall

13:15
