

Session Program

2-6 Dec 2014

DISCRETE 2014: Fourth Symposium on Prospects in the Physics of Discrete Symmetries

Parallel 1: Discrete symmetries (T, C, P), flavour, accidental symmetries

King's College London, Strand Campus, Great Hall and several lecture theatres
Strand London WC2R 2LS UK

Tuesday 2 December

14:45

Parallel 1: Discrete symmetries (T, C, P), flavour, accidental symmetries

Session | **Location:** River Room

14:45–15:15

Subtleties in the BaBar measurement of time-reversal violation

Speaker

Aielet Efrati

15:15–15:50

NOVEL T-VIOLATION OBSERVABLE OPEN TO ANY DECAY CHANNEL AT MESON FACTORIES

Speaker

francisco j. botella

15:50–16:20

A direct test of T symmetry in the neutral K meson system at KLOE-2

Speaker

Aleksander Gajos

16:20
