

Session Program

2-6 Dec 2014

DISCRETE 2014: Fourth Symposium on Prospects in the Physics of Discrete Symmetries

Parallel 6b: Foundations of Quantum Theory, Pauli Principle Tests

King's College London, Strand Campus, Great Hall and several lecture theatres
Strand London WC2R 2LS UK

Wednesday 3 December

18:30

Parallel 6b: Foundations of Quantum Theory, Pauli Principle Tests

Session | Location: River Room

18:30-19:05

Quantum mechanical models, conservation laws and a discrete action principle

Speaker

Hans-Thomas Elze

Location

River Room

19:05-19:35

High sensitivity tests of the Pauli Exclusion Principle with VIP2

Speaker

Dr Johann Marton

Location

River Room

19:35
