

## Session Program

2-6 Dec 2014

### **DISCRETE 2014: Fourth Symposium on Prospects in the Physics of Discrete Symmetries**

#### ***Parallel 9: Higgs physics @ LHC, discrete symmetries @ LHC, new facilities***

King's College London, Strand Campus, Great Hall and several lecture theatres  
Strand London WC2R 2LS UK

# Thursday 4 December

14:30

## Parallel 9: Higgs physics @ LHC, discrete symmetries @ LHC, new facilities

Session | Location: Great Hall

14:30–15:00

### Higgs Physics: Review of recent results and prospects from ATLAS and CMS

**Speaker**

Martin Flechl

15:00–15:30

### How effective is the Standard Model effective field theory?

**Speaker**

Tevong You

15:30–16:00

### Natural Standard Model Alignment in the Two Higgs Doublet Model

**Speaker**

Bhupal Dev

16:05
