

Session Program

2-6 Dec 2014

DISCRETE 2014: Fourth Symposium on Prospects in the Physics of Discrete Symmetries

Parallel 5: Strongly coupled gauge theories

King's College London, Strand Campus, Great Hall and several lecture theatres
Strand London WC2R 2LS UK

Wednesday 3 December

16:35

Parallel 5: Strongly coupled gauge theories

Session | Location: River Room

16:35–17:10 **A 3d effective lattice theory for Yang-Mills and QCD thermodynamics**

Speaker
Owe Philipsen

17:10–17:45 **Variationl Study of SU(3) Gauge Theory by Stationary Variance**

Speaker
Fabio Siringo

17:45–18:20 **DSE-inspired model for the Pion GPD**

Speaker
José Rodríguez Quintero

18:20
