# Bottom Up Approach (Unfocused but Success-Oriented)

1. Declare ourselves to be the start of the *ad hoc* Foundation Board
  - Membership: anyone who wants to join the meetings.
  - Decision making process: consensus.
2. Seek nominations for an *ad hoc* leadership (team) of maximum 3 people (1 is also OK)
3. Appoint the leadership team with a 1-year (max) mandate focused on:
  - Identifying the highest priority support tasks and recruiting effort to start the work.
  - Proposing the next stage in the evolution of the Foundation to a less *ad hoc* structure.
