

HSF Next Steps

16th July 2014

John Harvey

PH-SFT, CERN

- ❑ White papers indicate a broad consensus on need for an HSF
 - see statements on stakeholders, mission, goals, tasks etc.
- ❑ Now need to make a concrete proposal
 - role for the ‘ad-hoc group’ of interested parties (us ++)
- ❑ Option 1 : top-down approach
 - establish a governance model
 - issue calls to fill leadership roles who then drive the process
- ❑ Option 2 : bottom-up approach
 - invite projects to join (‘endorsed’ and ‘hosted’)
 - these produce specific proposals on services and eventually agree on a governance strategy
- ❑ In both cases it is important that effort is committed to drive the process
