# Bottom Up Approach

---

- ❖ Initial set of HEP software projects join a proto-foundation
  - ❖ E.g. ROOT, GenFit, HepMC, Geant4, etc.
- ❖ Initial Technical Board is formed by the project leaders / sponsors of the initial projects
  - ❖ Define the initial “portfolio of services” that should help the projects
  - ❖ Estimate the resources required for the common services
- ❖ Interested laboratories et al. (resource providers) join the foundation
  - ❖ Initial pledges to contribute to realize the portfolio of services
  - ❖ Initial Governing Board is formed
- ❖ Formalization of the Foundation
  - ❖ Input from Technical Board and Governing Board
- ❖ New projects and organizations joining the Foundation
