

Angels & Demons

The Physics Behind the Movie

Rolf Landua

CERN

Angels & Demons - The Physics behind the Movie

The story line of Angels & Demons

Illuminati

Detective story about a secret society which ...

... steals 1 g of antimatter from a physicist at the 'LHC' in a place called "CERN" ...

... to blow up the Vatican, an old "enemy of science and CERN".

What's true ? What's false ? Antimatter seems mysterious

Angels & Demons - The Physics behind the Movie

Antimatter Questions

Seven questions

What is antimatter ?

Where is antimatter made ?

How is antimatter made ?

The mystery of antimatter ?

How to study antimatter ?

Energy source? A bomb ?

Antimatter in daily life ?

Angels & Demons: The Director

In 2007, to prepare his movie, Ron Howard visited CERN to find out more about antimatter traps.

What did he say after his guided tour at CERN?

That's how small I feel after seeing the huge machines ...

That's the budget of my new movie "Angels and Demons"

This much science will be in the "Angels and Demons" movie ...

This is what Dan Brown understands about antimatter

1 What is antimatter

1 What is antimatter ?

Everything is made of matter
(We, animals, plants, rocks)

Hierarchy of matter structures

Matter is made of particles

The whole (visible) Universe is made of 3 building blocks

1 What is antimatter ?

Particles have specific **masses** and **charges**

Name	Electric Charge [e]	Mass [GeV*]
Electron	- 1	0.0005
Proton	+ 1	0.938
Neutron	0	0.941

*GeV = Giga-Electron Volt = 1,000,000,000 Electron-Volt = $1.8 \cdot 10^{-27}$ kg

1 What is antimatter ?

Anti-particles have the **same mass**, but **opposite charge**

Name	Electric Charge [e]	Mass	Electric Charge [e]	Name
Electron	- 1	0.0005	+ 1	Positron
Proton	+ 1	0.938	- 1	Antiproton
Neutron	0	0.941	0	Antineutron

Particles

Anti-particles

Angels & Demons - The Physics behind the Movie

1 What is antimatter ?

Particles and anti-particles are always **created in pairs** ...

$$E=mc^2$$

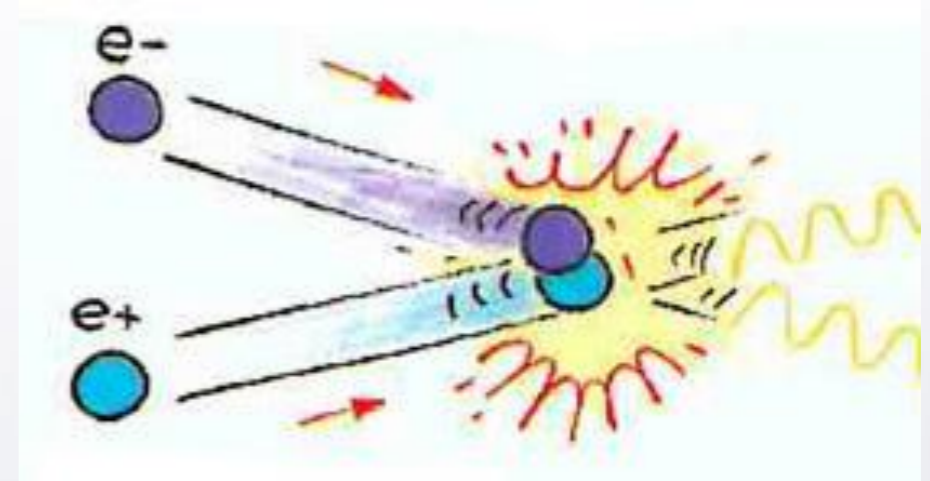

Energy to
mass:

... and they can also **annihilate** each other

$$E=mc^2$$

Mass to energy:

1 What is antimatter ?

Metaphors for the relation between particles and anti-particles

1 What is antimatter ?

Anti-particles are **as real as particles**

Matter becomes antimatter

A world made of antiparticles would look the same as our world.

1 What is antimatter ?

Careful with “antimatter E.T.” !

2 Where is antimatter made

2 Where is antimatter made ?

CERN - The biggest laboratory for particle physics

Angels & Demons - The Physics behind the Movie

2 Where is antimatter made ?

10,000+ scientists from 104 countries work at CERN

Angels & Demons - The Physics behind the Movie

2 Where is antimatter made ?

Large
Hadron
Collider

27 km long
100 m underground

Angels & Demons - The Physics behind the
Movie

LHC experiments are in caverns 100 m underground

Angels & Demons - The Physics behind the Movie

The Hollywood version of antimatter production

Angels & Demons - The Physics behind the Movie

3

How is antimatter made

A photograph of a blackboard with the equation $E=mc^2$ written in white chalk. The equation is centered on the board and is slightly out of focus, giving it a soft, glowing appearance.

Energy is converted to **mass**

Mass of electron and
positron

3 How is antimatter made ?

In the centre of the Sun, mass is converted to energy

Angels & Demons - The Physics behind the Movie

3 How is antimatter made ?

In particle collisions, **energy** is transformed into **matter** and **antimatter**

3 How is antimatter made ?

New particles and antiparticles are produced in collisions

4 The mystery of antimatter

Angels & Demons - The Physics behind the
Movie

4 The mystery of antimatter

Angels & Demons - The Physics behind the Movie

4 The mystery of antimatter

Antimatter and ...

God particle ?? No.

Implications for energy research ? Hmmm.

Combustible substance ? May be.

An airtight nanocomposite container with magnets

The moment of creation ...

4 The mystery of antimatter

Big Bang model: the evolution of the Universe

Angels & Demons - The Physics behind the Movie

4 The mystery of antimatter

Where has the antimatter gone ?

Solar System ? No !

4 The mystery of antimatter

Where has the antimatter
gone ?

In galaxies far, far away ? No.

There seems to be no antimatter in the
Universe !

4 The mystery of antimatter

No antimatter in the Universe ?

Why not ???

4 The mystery of antimatter

Cosmic CSI

Big Bang:

Energy transforms to mass

$< 1 \mu\text{s}$: matter = antimatter

Annihilation battle

1 s : all antimatter has disappeared,

some particles left (all stars/ planets)

loads of 'photons' (left from annihilation)

Universe filled with light (cosmic microwave backg.)

4

The mystery of antimatter

Why did all antimatter disappear, but a little bit of matter was left?

Matter and antimatter: (slightly) different properties?

Mass, charge, magnetic moment (CERN: Antihydrogen experiments)

CP violation (CERN: LHCb experiment)

5 How to study antimatter ?

The antihydrogen route

...

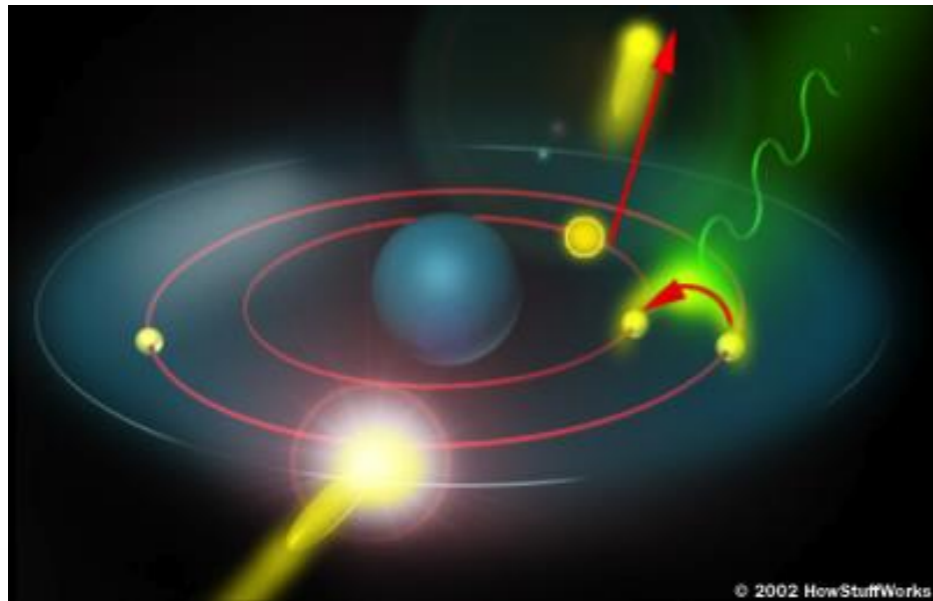

5 How to study antimatter ?

Compare hydrogen with **antihydrogen** atom

Measure differences to a precision of
0.000 000 000 000 001 %

5 How to study antimatter ?

Same energy levels ?

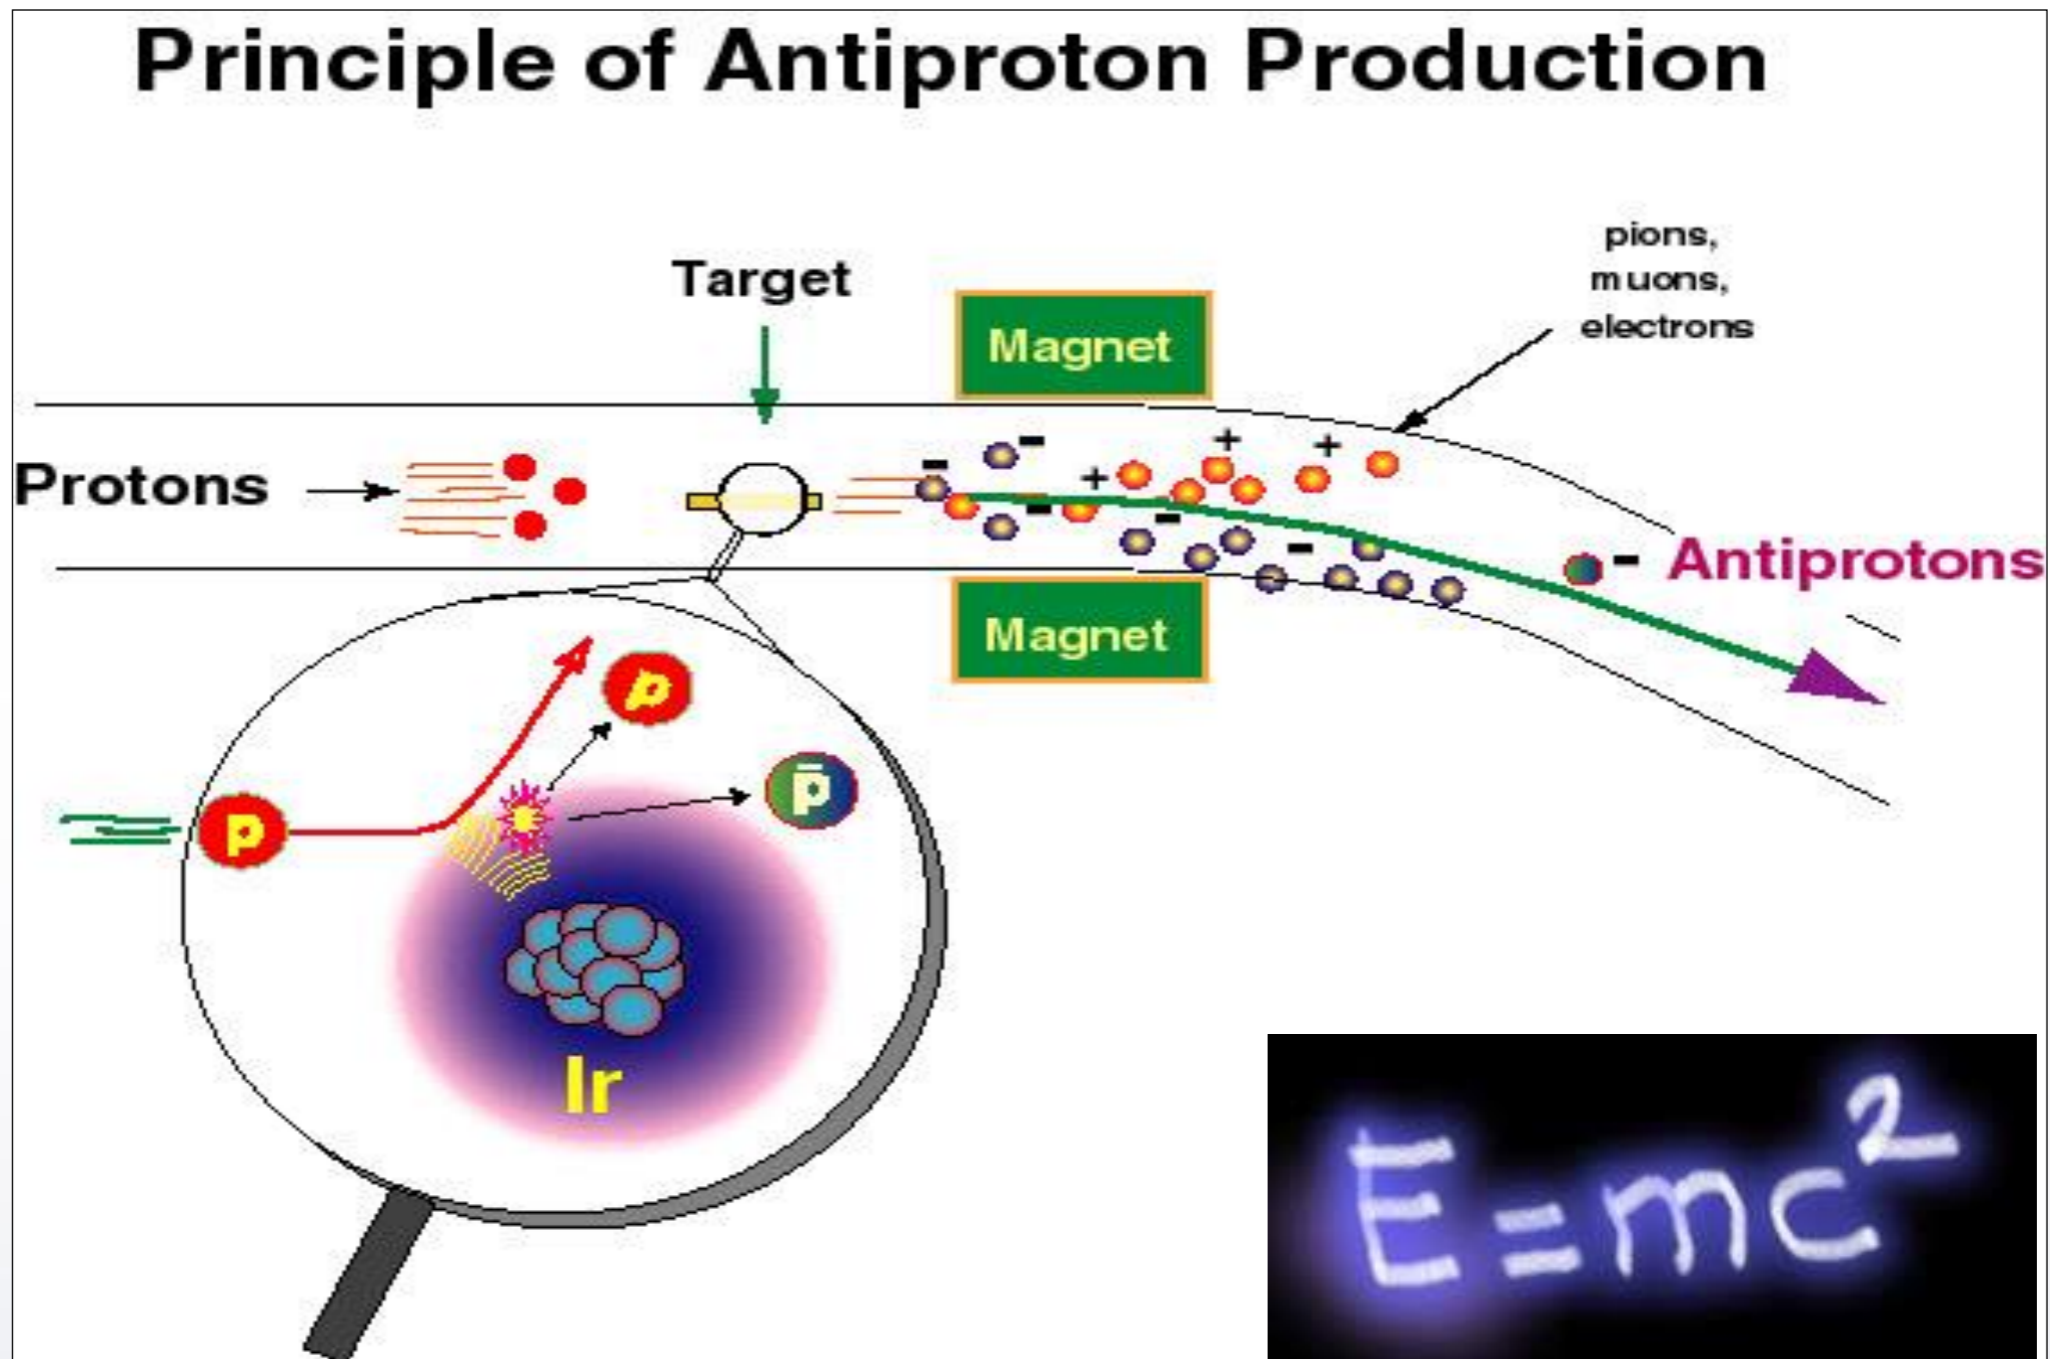

Same gravity ?

5 How to study antimatter ?

How to make millions of antihydrogen atoms (ATHENA, 2002)

- 1 - Produce, decelerate, and trap antiprotons
- 2 - Produce and trap positrons
- 3 - Merge antiproton and positron plasmas
- 4 - Produce antihydrogen atoms (recently: trap antihydrogen)

5 How to study antimatter ?

Antiprotons are made in collisions of protons with nucle

Angels & Demons - The Physics behind the Movie

5 How to study antimatter ?

Antiproton Decelerator

produces

100,000,000

antiprotons per minute

Slows them down to
10 % of the speed of
light

Angels & Demons - The Physics behind the
Movie

Antiproton Decelerator at CERN

5 How to study antimatter ?

Principle of antiparticle trapping

5 How to study antimatter ?

The real antimatter trap at CERN

Angels & Demons - The Physics behind the Movie

The “Angels & Demons” version

6 An energy source? A bom

6 An energy source? A bomb?

Dan Brown: “Antimatter is the energy source of the future” !

No

Antimatter production **requires energy**

**1,000,000,000 times more energy invested
than released by annihilation**

Antimatter explosion in “Angels & Demons”

6 An energy source? A bomb?

Hiroshima - 20 kt TNT equivalent

Dan Brown:

“0.5 g antimatter makes a powerful bomb”

$$E=mc^2$$

**22 kt TNT = $9 \cdot 10^{13}$ J =
0.5 g antimatter + 0.5 g
matter**

So this is correct, but

6 An energy source? A bomb?

$0.5 \text{ g antimatter} = 4.5 \cdot 10^{13} \text{ J}$

Total energy needed (efficiency = 10^{-9}) : $4.5 \cdot 10^{22} \text{ J}$

Even with electricity discount price CERN by EDF

[$1 \text{ kWh} = 3.6 \cdot 10^6 \text{ J} = 0.1 \text{ €}$]

Price $1,000,000,000,000,000 \text{ €}$

Delivery time $1\ 000\ 000\ 000\ \text{years}$

7 Antimatter in daily life ?

7 Antimatter in daily life ?

Antimatter in your body !

Glucose supplies energy

Add **positron** emitting isotopes (e.g. F-18) to glucose

Inject into blood stream

Glucose accumulates where energy is needed

Positron emission and annihilation - detect where glucose is !

Angels & Demons - The Physics behind the Movie

7 Antimatter in daily life ?

Positron Emission Tomography (“PET Scan”)

Antimatter helps

- to understand how the brain works

- to find tumours

Angels & Demons - The Physics behind the Movie

7 Antimatter in daily life ?

Positron Emission Tomography (“PET Scan”)

**Antimatter helps to find
tumours**

Angels & Demons - The Physics behind the
Movie

7 Antimatter in daily life ?

Tumour therapy with antiprotons ?

Gamma radiation destroys many healthy cells

Protons deliver radiation more specifically to tumour cells

Antiprotons would be 3 x more efficient than protons (annihilation!)

Gamma radiation

Protons

Antiprotons

What did Ron Howard say?

Angels & Demons - The Physics behind the Movie

Bill Clinton explains the structure of matter **WEF 2011,**
Davos

Laser cooling

121 nm laser needed
Prototype at MPI Munich
... only 50 nW

Magnetic multipole traps ?

$$U = -\vec{\mu} \cdot \vec{B}$$
$$\vec{F} = -\vec{\nabla} U$$

Low field seeking atoms (50%) at $r=0$

BUT: Very shallow potential (~ 0.07 meV/T)

Realistic $\Delta B \sim 0.2-0.3$ T \Leftrightarrow **$E < 0.02$ meV**

(reminder: produced antihydrogen has $E_{\text{kin}} \sim 1-200$ meV)

Trap antihydrogen from low energy 'Boltzmann tail' ?

Example: Sextupole magnet

- More than 1 million antihydrogen atoms produced
- Small kinetic energy (< 0.01 eV)
- Next step (in progress): trap antihydrogen atoms

p^- and e^+ in mixing trap (cooling)

Antihydrogen formation

AD

p^- Production (GeV)

Deceleration (MeV)

Trapping (keV)

Cooling (meV)

$10^4 p^-$

$10^8 e^+$

Na-22

e^+ Production (MeV)

Moderation

Accumulation (eV)

Detection of annihilation

Antihydrogen milestones

Is that true? Make very precise comparisons!

difference less than one dust grain

Mass of proton and antiproton ?

Present result: $\Delta M / M < 0.000000001$

Magnetic moment of electron and positron ?

Present result: $\Delta \mu / \mu < 0.000000000001$

Present status: excellent agreement !

ATHENA Experiment (2002), at the AD facility

- More than 1 million antihydrogen atoms produced
- Small kinetic energy (< 0.01 eV)

2002: 'Cold' antihydrogen production by AD experiment

• Next step (in progress): trap antihydrogen atoms

Angels & Demons - The Physics behind the Movie

Recombination

- More than 1 million antihydrogen atoms produced
- Small kinetic energy (< 0.01 eV)
- Next step (in progress): trap antihydrogen

atoms
Angels & Demons - The Physics behind the
Movie

Next step: Trapping antihydrogen

Neutral (anti-) atoms escape from Penning trap
