# Higgs to SUSY decays at the full one-loop level

*Friday 28 August 2015 14:20 (20 minutes)*

We present recent result for the decay of (heavy) SUSY Higgs bosons into SUSY particles (sfermions, charginos, neutralinos), based on a full one-loop calculation. We analyze in particular the dependence on the complex parameters of the model. We find corrections at the level of 10-20% or higher.
