

Session Program

4-5 Sept 2008

**Beyond the 3SM generation at the LHC era
Workshop**

Precision physics I

CERN, 40-S2-D01

Friday 5 September

13:20

Precision physics I

Session | Location: CERN, 40-S2-D01

13:20-13:45

Electroweak radiative corrections and extra generations

Speaker

Prof. Mikhail Vysotsky

13:45-14:05

Constraints on the quark and lepton mixing matrices from a few simple constraints within a fourth generation scenario

Speaker

Prof. Heiko Lacker

14:05-14:25

CPV in $b \rightarrow s$ and $b\bar{s}$ transitions

Speaker

George Wei-Shu Hou

14:25
