

Beyond the 3SM generation at the LHC era Workshop

Friday 5 September 2008

Astroparticle & Cosmology - 40-S2-D01 (10:50 - 12:00)

time	[id] title	presenter
10:50	[17] Dark matter from new stable quarks and leptons	Prof. KHLOPOV, Maxim
11:10	[18] Model of Electroweak scale active right-handed neutrinos, its extension and phenomenological implications	Prof. HUNG, P.Q.
11:35	[19] On the origin of families and their mass matrices with the approach unifying spins and charges, prediction for the fourth family and the dark matter family	Prof. MANKOC BORSTNIK, Norma Susana
