

FCC Physics Studies

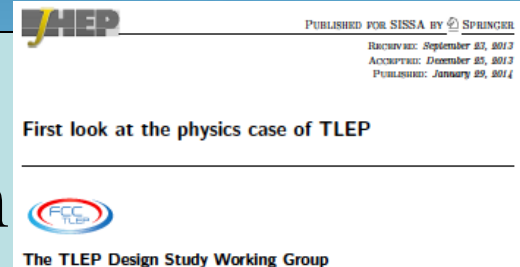

King's College London

Kings College London

- Theoretical group with interests in collider physics, BSM and astroparticle physics
- Participation in ATLAS
(one faculty member: top, Higgs)
- Participation in MoEDAL
(three faculty members, incl. physics coordinator)
- Close collaboration with Imperial College CMS group

Kings College London

- Interested in physics of FCC-ee, FCC-hh, interplay between them
- Two faculty members engaged (Bobby Acharya, John Ellis), postdocs, students
- Plan to collaborate with Imperial College London, ICTP Trieste, U. of Michigan
- Funding currently through ERC grant to JE 'Terauniverse'
- Will seek other continuing sources
