

Session Program

15-17 Dec 2014

ISOLDE Workshop and Users meeting 2014 "50th Anniversary Edition"

Ground-State Properties

CERN, 503/1-001 - Council Chamber

Monday 15 December

16:00

Ground-State Properties

Session | **Location:** CERN, 503/1-001 - Council Chamber | **Convener:** Andreyev Andreev

16:00–16:30 **Nuclear Structure Theory: today and tomorrow**

Speaker

Witold Nazarewicz

16:30–17:00

Structure of Potassium and Calcium isotopes studied by Collinear Laser Spectroscopy

Speaker

Prof. Gerda Neyens

17:00–17:20 **The CRYRING@ESR project - status and prospects**

Speaker

Frank HERFURTH

17:20–17:40

High-precision mass measurements of $^{129}\text{-}^{131}\text{Cd}$ and their impact on nuclear astrophysics

Speaker

Mr Frank Wienholtz

17:40
