

Siam Physics Congress 2015

Thursday, May 21, 2015

Surface, Interface and Thin Films - Phokeethra 1 (9:45 AM - 10:45 AM)

time	[id] title	presenter
9:45 AM	[344] Effect of Argon Pressure on the Structural and Optical Properties of RF-Sputtered ZnO Thin Films	RATH, Shyama
10:15 AM	[101] Polysulfone Gas Separation Membrane: Effect of Evaporation Time on Morphology and Mechanical Strength	Mr YUENYAO, Chalad
10:30 AM	[318] Effect of growth parameters and gamma ray irradiation on luminescence properties of Eu-doped barium titanate thin films	Mr RATCHATORN, Tanapat
