

**Session Program**

**20-22 May 2015**

**Siam Physics Congress 2015**

***Surface, Interface and Thin Films***

# Thursday 21 May

09:45

## Surface, Interface and Thin Films

Session | Location: Phokeethra 1

09:45-10:15

### Effect of Argon Pressure on the Structural and Optical Properties of RF-Sputtered ZnO Thin Films

**Speaker**

Shyama Rath

10:15-10:30

### Polysulfone Gas Separation Membrane: Effect of Evaporation Time on Morphology and Mechanical Strength

**Speaker**

Mr Chalad Yuenyao

10:30-10:45

### Effect of growth parameters and gamma ray irradiation on luminescence properties of Eu-doped barium titanate thin films

**Speaker**

Mr Tanapat Ratchatorn

10:45
