

Session Program

3-7 Dec 2014

**The 2nd International Conference on the
Initial Stages in High-Energy Nuclear
Collisions**

Thursday PM-2

Embassy Suites Napa Valley, California

Thursday 4 December

16:40

Thursday PM-2

Session | **Location:** Embassy Suites Napa Valley, California | **Convener:** Ralf Averbeck

16:40–17:00

Recent results on flow and correlations from the ATLAS experiment

Speaker
Soumya Mohapatra

17:05–17:25

Review of flow results from ALICE

Speaker
Anthony Robert Timmins

17:30–17:50

PHENIX Measurements of Anisotropic Flow in Heavy-Ion Collisions at RHIC energies

Speaker
Arkadiy Taranenko

17:55–18:15

Initial-state fluctuations from transverse momentum and pseudorapidity dependent event plane fluctuations with CMS

Speaker
Mr Wei Li

18:20
