

"Dropbox-like" service for the University of Vienna

Raman Ganguly

raman.ganguly@univie.ac.at

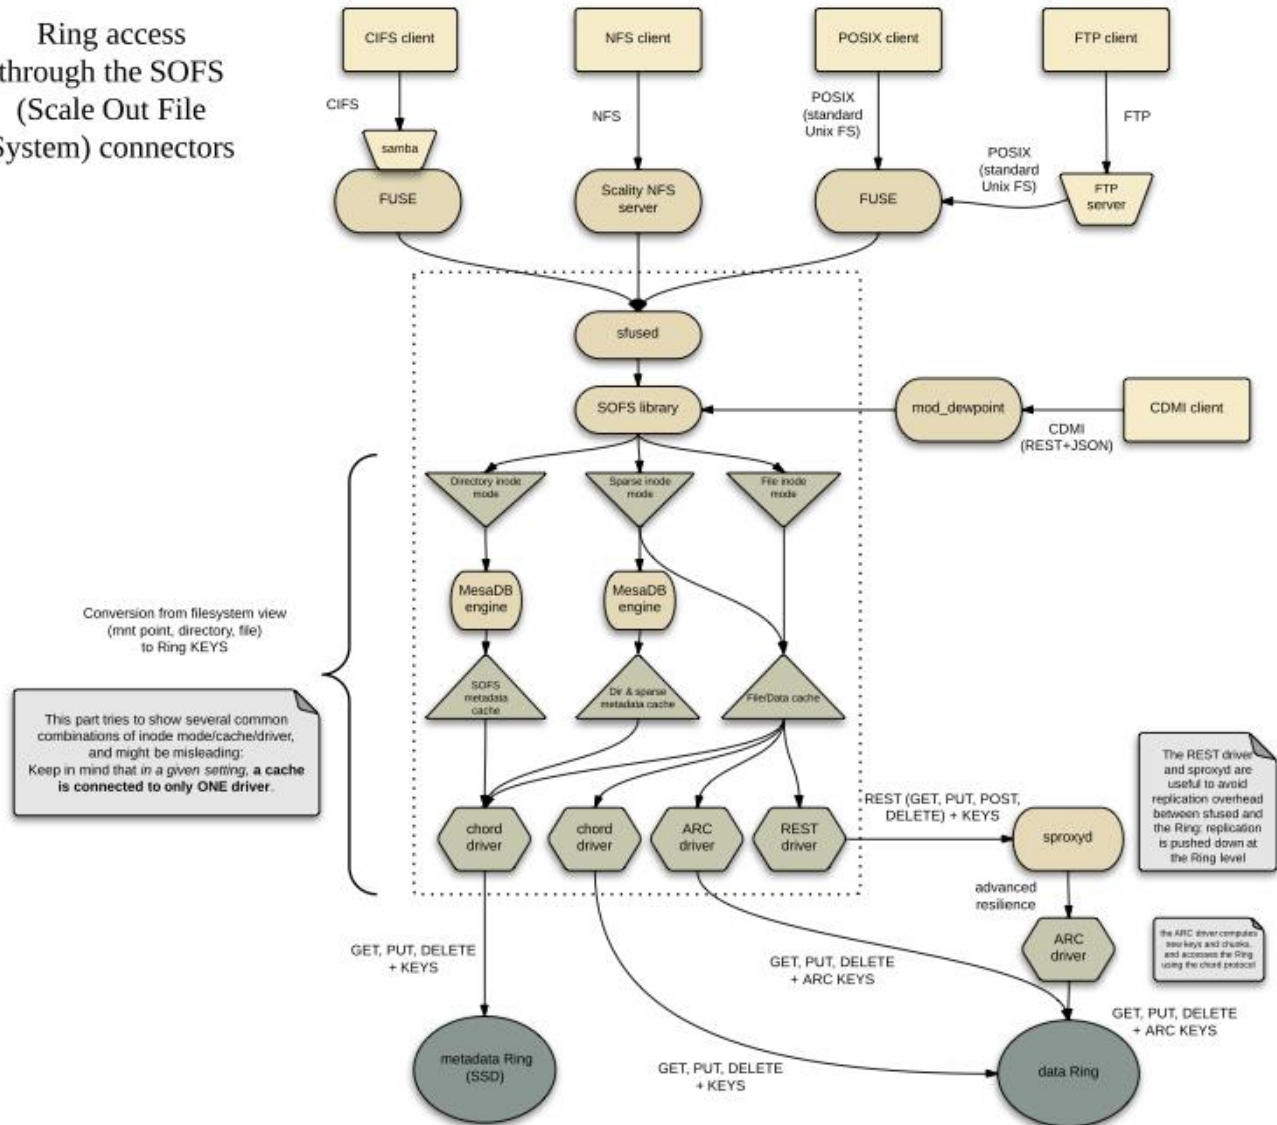

u:cloud

- branded OwnCloud Version 7
- planned roll out by mid of December
- university staff with focus on researcher
- future use of document sharing

Storage

- Object storage
- Scality Ring
- FUSE Connector
- POSIX File
- Future - native on Object storage

Ring access through the SOFS (Scale Out File System) connectors

Problems

- Shibboleth and WebDAV don't work, need two different hosts
- Version 6 a patch was needed for LDAP
- Shibboleth on mobile client is not user friendly
- Performance
- No dedicated stuff for the service
- Terms of Use
