Workshop on Cloud Services for File Synchronisation and Sharing

Monday, 17 November 2014

Technology and research - 31/3-004 - IT Amphitheatre (14:15 - 16:40)

time	[id] title	presenter
14:15	[11] OpenStack Swift as Multi-Region Eventual Consistency Storage for ownCloud Primary Storage	Mr JERICHO, David
14:40	[17] Programmatic access to file syncing services	OWEN, Patrick Haworth
15:05	[21] Data Management Services for VPH Applications	Dr BUBAK, Marian
15:30	[18] Storage solutions for a production-level cloud infrastructure	Dr DONVITO, Giacinto ANTONACCI, Marica VINCENZO, Spinoso
15:55	[19] DataNet: A flexible metadata overlay over file resources	HARĘŻLAK, Daniel
16:20	[31] Adaptive Query Processing on RAW Data	BRANCO, Miguel

Technology and research - 31/3-004 - IT Amphitheatre (17:00 - 19:25)

time	[id] title	presenter
17:00	[14] The File Sync Algorithm of the ownCloud Desktop Clients	Mr FREITAG, Klaas
17:25	[16] Combining sync&share functionality with filesystem-like access	BRZEZNIAK, Maciej
17:50	[20] Dynamic Federations: scalable, high performance Grid/Cloud storage federations	FURANO, Fabrizio
18:15	[8] The dCache scientific storage cloud	MILLAR, Paul
18:40	[4] WebFTS: File Transfer Web Interface for FTS3	MANZI, Andrea
19:05	[22] Current practical experience with the distributed cloud data services	JAROSLAV KREMENEK, George
