

Vector boson transverse momentum distributions

Tuesday, October 21, 2014 11:00 AM (20 minutes)

- give the basic setting (powheg, RESBOS, tune: starting points for the experiments)
- is the same between experiments ?
- discuss a basic procedure for systematics
- LHC data used to constrain the uncertainties, and how

Presenter: PERROZZI, Luca (Eidgenoessische Tech. Hochschule Zuerich (CH))
