

eGamma tutorial

Thursday 18 September 2008 14:00 (1h 30m)

- running eGamma reconstruction
- calibration of electrons and photons
- track matching and energy isolation criteria
- selection of loose/medium/tight electrons and photons
- impact on efficiency, mass resolution

Presenters: FROIDEVAUX, Daniel (CERN); KERSCHEN, Nicolas (University Of Sheffield)

Session Classification: Muons, Electrons & Photons tutorials
