

DIS 2015 - XXIII. International Workshop on Deep-Inelastic Scattering and Related Subjects

Thursday, 30 April 2015

WG1+WG5 Joint Session - BALLROOM EAST (08:30 - 10:15)

time	[id] title	presenter
08:30	[45] Impact of heavy-flavour production cross sections measured by the LHCb experiment on parton distribution functions at low x.	PROSA, Collaboration
08:55	[50] QCD Analysis of the combined HERA inclusive data together with HERA jet and charm data	H1 AND ZEUS, Collaboration BRANDT, Gerhard Immanuel
09:20	[321] New Limits on Intrinsic Charm in the Nucleon from Global Analysis	JIMENEZ-DELGADO, Pedro Prof. LONDERGAN, Tim MELNITCHOUK, Wally
09:45	[212] On the intrinsic heavy quark content of the nucleon and its impact on heavy new physics at the LHC	LYONNET, Florian
