

# Schedule

A woman with her hair in a bun, wearing a grey jacket, is sitting on a ledge on the right side of the frame. She is looking out over a vast landscape at sunset. The landscape features a valley with a town, a large body of water, and distant mountains under a hazy, orange-tinted sky. The word "Schedule" is overlaid in white text on the left side of the image.

Tuesday : People  
Wednesday : Needs & communication  
Thursday : Context  
Friday : Iteration

Saturday : FREE

Sunday : Building (24h prototyping challenge)  
Monday : Building continues & team/CERN -time  
Tuesday : team/CERN -time  
Wednesday : How to present / TEDx  
Thursday : Transition to remote  
Friday : Kick-out

Challenge Based Innovation

29.9.2014 – 15.2.2014

CERN 2<sup>nd</sup> intensive period

16.2.2014 – 27.2.2014

Visiting CERN in between?

Problem convergence: 3.11.2014 – 9.11.2014

-> Redefined mission statement

Solution convergence: 8.12.2014 – 14.12.2014

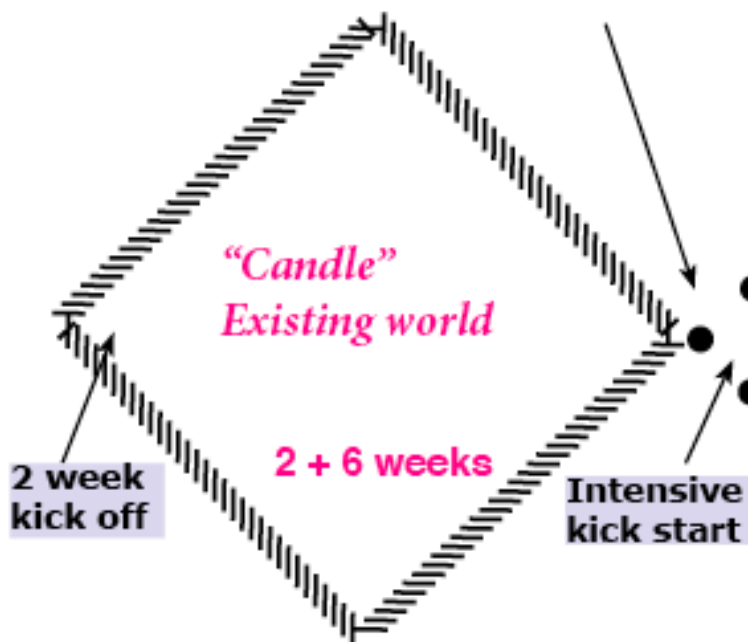

-> Radical concept presented

(xmas holiday: 22.12.2014 – 4.1.2015)

Finalization at CERN: 16.2.2014 – 27.2.2014

-Presenting the proof-of-concept prototype at CERN

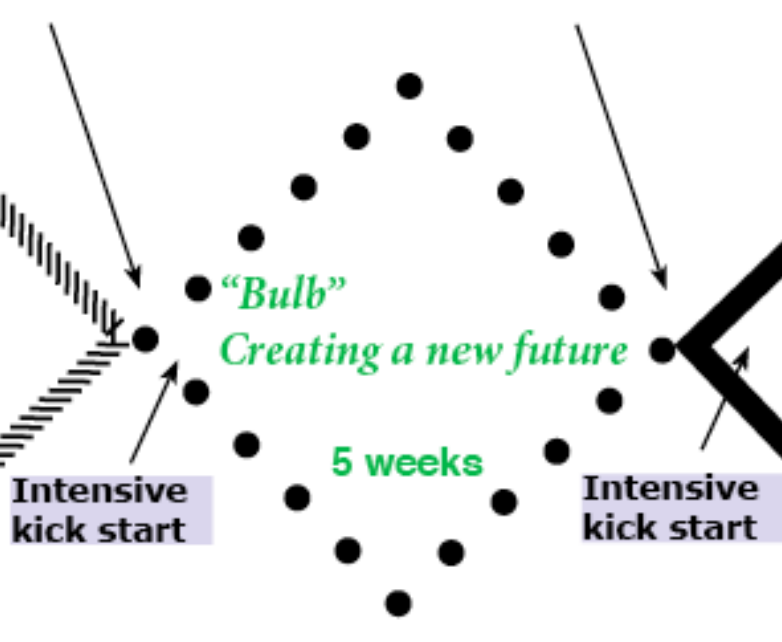

## Problem convergence

### Goals of phase I:

- Understanding the problem on a deep level.
- Convergence on a design mission.
- Understanding the importance of testing.

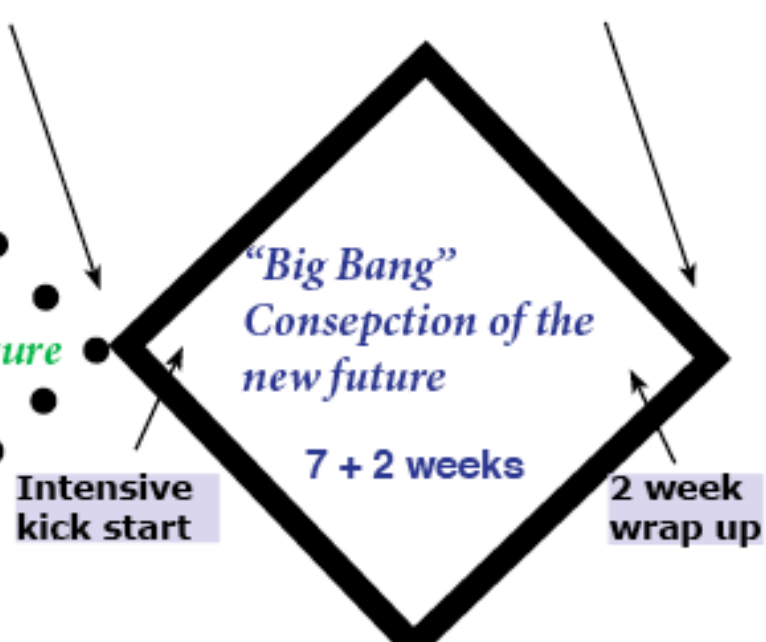

## Solution convergence

### Goals of phase II:

- Understanding the solution on a deep level.
- Understanding why the solution they choose is the best and what possible impact it will have.

## Integration convergence

### Goals of phase III:

- Team is able to work together and create an integrated whole
- Team is able to advance in functional steps and with minimal procrastination
- Team members find meaningful ways to contribute to the whole

## Global hackathons

- 15. – 16.11
- Beginning of January – dates to be decided together

## Weekly schedule

- Launching assignments online on Monday
- Meetings with the local teaching teams
- Documenting and sharing your journey – videos, documents and so on.
- Following and giving feedback to your assigned team
