

# Dark Matter at the Large Hadron Collider 2016

## Thursday, 31 March 2016

### Complementarity of Different Dark Matter Searches (13:45 - 18:00)

time	[id] title	presenter
13:45	[25] Complementarity of the mono-X and SUSY searches	TATTERSALL, Jamie
14:15	[24] Implications of flavour constraints on Dark Matter	BLANKE, Monika
14:45	[26] Indirect detection	LISANTI, Mariangela
15:15	[30] Future of direct detection	BILLARD, Julien
15:45	Coffee Break	
16:15	[28] A careful comparison between LHC and direct detection	D'ERAMO, Francesco
16:45	[27] Implications of the direct detection results on the LHC in the context of new simplified models	VOGL, Stefan
17:15	[29] discussion	MAHMOUDI, Nazila
